CARBON TRADING CO.

LITTLE ITEMS OF LOCAL INTEREST

FARM FOR SALE

The S.E. 1/4 of 7, 29, 23., west of the 4th. Apply Alfred Cotteril, Carbon, Alta. 2tp

Miss Ione Munro returned on Tuesday after spending the past two months at her home in Red Deer. Miss Munro will teach at the Gamble school again this year.

H. Bruels motored to Calgary on Wednesday to meet Mrs. Bruels, who is returning after spending the summer visiting in Eastern points. They returned to Carbon the same day.

House for Rent or Sale. On Easy Terms. Also a tent 12 x 16, nearly new, cheap. Apply W. L. Castiglione, Carbon. 1tp

Mrs. S.N. Wright left for Calgary on Monday, when she received word that her mother was quite ill.

The Farmers' Exchange is putting in two more gasoline pumps in front of the store.

S. J. Garrett was a Calgary visitor on Tuesday, returning Wednesday.

Rudolph Brost began cutting his wheat crop on Wednesday.

Mrs. Walker and children of Lethbridge, are visiting with Mr. and Mrs. C. H. Nash for a few days.

BURGLARS BREAK INTO LOCAL BANK MONTREAL

Sometime between midnight on August 17 and 2 a.m., on August 18 the premises occupied by the Bank of Montreal at Carbon were broken into and entered, but nothing of value was taken.

The two bank clerks who sleep in the building went to a dance that evening, following the Stampede held at Carbon that day. They left the bank at midnight and returned two hours later. Hearing a slight noise one of them, Mr. Roberts, investigated and he found that the grating had been pried off a back window, and that a side door had been opened from the inside and left unlocked.

The thieves evidently had been disturbed by the unexpected return of the two clerks and made their get-away through the side door. Corporal R.H. Purdy of the A. P. Police at Carbon, is investigating, but there is little to work on. During evening a large closed car was seen to drive up the alley behind the bank and park there, and it was gone when the dance broke up about 3 a.m.—Calgary Herald.

School to Reopen

School will reopen for the fall term on Thursday, September 1st. The following staff have been engaged: J. A. Connolly, principal and high school grades. J.N. McDonald of Edmonton, grades VI, VII and VIII. R. S. English, grades III, IV and V. Mrs. W.H. Bruels, grades I and II.

All beginners should be present on the opening day and all students in high school grades are requested to bring their statements of marks made on departmental examinations.

DAVID HALSTEAD'S CAR GOES OVER THE BANK

What might have resulted in a serious accident occurred on Monday morning about 8 o'clock, when David Halstead's car went over the bank on the road past the Catholic church at the curve going north, about 1/2 mile from Carbon. It seems that the accident could not be avoided, for, when Mr. Halstead was about to turn the corner the wheels would not move and the car went straight ahead, going over the bank and turning over twice.

Mr. Halstead was the only occupant in the car and he was fortunate in escaping with only a few slight bruises. The car was badly wrecked, but was taken out to Mr. Halstead's farm and will likely be repaired.

LITTLE ITEMS OF LOCAL INTEREST

V.E. Greenier and sister, Irene, were visitors in Calgary on Sunday with Miss Mary Lomas.

Mr. and Mrs. L. Poxon motored to Edmonton on Sunday and expect to be gone four or five days.

J.J. Greenier motored in from Hesketh on a business trip to Carbon and Grainger on Saturday.

Mrs. Edwards returned to Carbon on Friday evening after spending the past few days visiting in Calgary.

Lindsay Elliott was a business visitor in town last Wednesday.

Mr. and Mrs. G. W. Malton and family returned on Saturday after spending the past month holidaying at the Pacific coast.

A meeting will be held in the Municipal Office, Carbon, on Monday evening, Aug. 29, at 8 p.m. (not 8.30) for the purpose of reorganizing and electing officers for the Board of Trade. All who are interested are urgently requested to be present.

Mr. and Mrs. D. E. Charlebois and family and Wilfred, Henry, Irene and Florence Greenier were visitors to Pine Lake on Sunday.

Garrett Notes

On Wednesday, August 10th a Young Peoples Society was formed in the Garrett School. The following officers were elected:

President, Mary Irwin
Vice-Pres, Gladys Craddock
Pianist, Mildred Craddock
Secretary, Chas. Cave
Treasurer, Jack Garrett

Tuesday night of each week has been selected for meeting nights.

A hearty welcome will be given to anyone wishing to join the Society.

On August 16 the society spent a very enjoyable evening playing baseball.

A successful dance was held in the Garrett School on Aug. 12th.

Mr. and Mrs. Levins visited Calgary last week to see the Prince of Wales and Premier Baldwin.

Miss Cecelia Fuller, of Calgary, is visiting in the district.

CARBON MAY HAVE A CURLING RINK

A meeting of the Carbon Curling Club was held in the Municipal office on Monday evening, Aug. 22, president Jas. McLeod occupying the chair. The purpose of the meeting was to decide whether or not a Curling rink could be built in Carbon and the location and cost of same. Considerable discussion took place on the matter and it was finally moved by R. Coburn and seconded by J.A. MacDonald that a committee composed of Messrs. R. J. Fairbairn, S.F. Torrance and J. A. MacDonald be appointed to go into the matter of the cost and location of such a curling rink and this committee was also to make a canvas of the town for members. Under the same motion another committee composed of Messrs. J. McLeod, J.J. Greenan and L. Poxon was appointed to look after the membership of the surrounding country. An advance membership fee of \$10 is to be collected immediately so that if a reasonable sum can be raised building commencement will not be delayed.

On a motion by Fred Poxon, seconded by J. A. MacDonald, Mr. Greenan was to be instructed to go ahead with the incorporation of the Carbon Curling Club.

Discussion also took place about a skating rink and although nothing was decided, it was agreed that Carbon ought to have such a rink and some provision will be made for the skaters for the coming season.

REV. C.B. OAKLEY INDUCTED AT CARBON UNION CHURCH

An Induction Service was held in the Carbon United church last Friday evening and was conducted by Rev. H. E. Gordon of Calgary, assisted by Rev. S.J. Pike of Airdrie and Rev. J. C. McLennan of Acme, when Rev. C.B. Oakley was inducted in the pastoral charge of this town. Rev. J. C. McLennan spoke on the importance of the work to which he had been called. Rev. S.J. Pike talked to the congregation from the words, "Let us rise up and build," and stressed the breaches in the walls, pointing out that these breaches were possible of repair only as each member contributed his share of the work. Mr. Oakley responded in a few well chosen words and then announced that lunch would be served and a social hour spent. This brought to a close what was declared by all present to be one of the most delightful services that had been held in Carbon for a long time.

Obituary

Word was received on Saturday, Aug. 20, of the death of Miss Mary Louisa Gore, of Swalwell. Miss Gore was a graduate nurse from the Holy Cross hospital and for the past year had been suffering from tuberculosis and was an inmate at Keith's Sanitarium, Calgary, and at which place she came to her death. Miss Gore was the daughter of Mr. and Mrs. W. R. Gore of Swalwell and was 26 years of age.

Funeral services were held in Calgary from the Armstrong Funeral Home on Monday afternoon at 2 o'clock, the Rev. Mr. Atwood officiating.

Childhood's Lessons affect the whole life

Sample Each Free by Mail. Address Canadian Distributors, Ltd., Montreal. Price, Soap 25c. Ointment 25c and 50c. Cuticura Shaving Stick 25c.

"Nothing Can Stop Us."

Canada has been honored in this year of its Diamond Jubilee by another visit from the Prince of Wales. On this occasion, however, he is accompanied by his brother, Prince George, and by the Right Honorable Stanley Baldwin, Prime Minister of Great Britain.

The significance of this visit will not be lost upon the people of Canada, nor, in fact, upon the British Empire as a whole. The ease with which the people of Canada and the British Isles can exchange visits nowadays is resulting in a more intimate knowledge of each other and is developing a community of interest quite lacking not so many years ago. Now it is almost as easy for the people of Canada and Britain to visit each other as it is for Canadians in the Maritime Provinces to visit their fellow citizens in British Columbia.

The fact is thus being made known to the world that Canada occupies a strategic position in the British Commonwealth of Nations. Its geographical location in the Empire, constituting it the main highway between the Occident and the Orient, must inevitably result in this Dominion being the real centre of the Empire in the not so very distant future. And the development of trans-oceanic travel by air will only serve to emphasize Canada's important place in the Empire.

Thus, for the first time in history, a Prime Minister of Great Britain is able during his tenure of office to leave Britain and make an official visit to one of the overseas Dominions. He could not possibly spare the time to visit any of the other Dominions. It is an epoch marking event.

It is apparent that Mr. Baldwin, himself, is cognizant of what the future has in store. In an address before the Montreal Canadian Club shortly after his arrival in this Dominion, Mr. Baldwin spoke in such optimistic terms of Canada's future possibilities and greatness that, voiced by a native Canadian, would have left the latter open to possible ridicule and criticism as being bombastic.

Mr. Baldwin sees no limit to the greatness of Canada's future. "Nothing can stop you," he declared. Canada, he went on to say, must progress with the world's progress with the result that some day "Canada may be the greatest nation in the world."

Sixty years of Confederation have proven to Canadians and to the world what can be accomplished, and have established the untold possibilities of the Dominion in all those qualities and resources which go to make a nation great. Another sixty years may easily see Canada with a larger population than the British Isles, with manufacturing being carried on with a magnitude as yet only dreamed of, and surpassing in output the great industries of the Old Land, while at the same time supplying in much greater degree than today the food requirements of the world.

Canada is only now getting into its stride. It is just up its feet, and on the eve of a development and expansion in all the major activities of the world which will establish a new world's record in national growth. Canadian foundations have been well and truly laid. They are strong enough upon which to erect a magnificent structure, and it only remains for the Canadian people to realize its possibilities and devote themselves with patriotic devotion and untiring energy to the inspiring task before them.

The days of pessimism are past. There never was any real cause for them, but this Jubilee year has, there is reason to believe, finally convinced the people of the Dominion of this fact. There has been a great awakening of our people, and a new national spirit has been evoked, a new confidence born, and a pride and courage developed which in a comparatively few years will work a veritable revolution in the growth of this Dominion.

Canadians will do well to keep ever in mind the slogan of the National Diamond Jubilee Committee "Canada Our Country," and to accept as their watchword the words given to them by Premier Baldwin, "Nothing Can Stop Us." In making Canada great and prosperous they will be rendering the finest possible service to the Empire as a whole and confer benefits upon the world at large, because, above all things, the Canadians are a home loving, peace loving people. They have the true conception of the new Internationalism which believes in the advancement of all peoples as the true policy of a better world.

Saskatchewan Cow Makes Record

A. E. Day, Secretary Dominion Shorthorn Breeders' Association, (Guelph, Ont.), reports that Darlington Mable (20189) a cow owned by F. S. Cooper, Gravelbourg, Sask., has just completed a 305-day record of 5,617 lbs. of milk and 219 lbs. of butter-fat.

Alberta Coal For B.C.

Mr. George R. Pratt, fuel engineer for the Alberta Government, reports that there are strong possibilities of establishing a satisfactory market for Alberta coal on the Pacific coast due, to some extent, to the creation of bunkering facilities at Vancouver.

Turns of other people are always doubly clear to us.

If a man is too lazy to think for himself he should get married.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Unique Device Patented

Rollers At Railroad Crossing Will Prevent Accidents

As a means for preventing automobile accidents at railroad crossings, an Ohio inventor has patented a roller device which has proved effective under tests, says Popular Mechanics Magazine. There are two sets of rollers, each eighteen feet long, installed in the highway near the rail approach. They revolve only one way and when the automobile strikes them, as a train is approaching, they turn, keeping the car from going forward. When the train passes, a switch locks the rollers so that the auto can proceed.

THE BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised By a Quebec Lady

Mrs. David Logan, Thetford Mines West, Que., gives unsolicited praise to Dr. Williams' Pink Pills for the good they have done in her family. Mrs. Logan says: "I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through them gained health and strength. My daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my eldest boy had an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars' worth of more expensive medicines."

Dr. Williams' Pink Pills assist digestion, correct the lassitude, the palpitation of the heart, shaky nerves and the pallor of the face and lips that are the results of thin, impure blood.

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Overcrowded Country

Population Of England Is 700 To the Square Mile

It must be confessed that we dwell in an over-crowded country. The population of England, apart from Wales and Scotland, is more than 700 to the square mile. We are four times as crowded as India and nearly three times as congested as China, we are twice as crowded as Germany or Italy, and nearly four times as France. Nevertheless, since 1910, we have built some 800,000 houses at a capital cost to the public purse estimated to be about £147,000,000—and still State subsidies are being given towards uneconomic housing schemes, which fill our suburbs and encourage builders to erect ugly villas along our country roads.—B. S. Townroe, Edinburgh Review.

Movies Filmed In Rockies

Spectacular Stunts Of Aviation Over Lake Louise

The most spectacular event ever attempted in the Canadian Rockies and one which attracted every guest to the front lawn of the Chateau Lake Louise, was successfully carried out by two Canadians, ex Royal Air Force officers, W. H. Williams and E. C. Higelow, who for half an hour performed a number of flying stunts over Lake Louise and the Chateau. Zooming down on the lake and dropping from the machine in parachutes were the features of the exhibition which was staged by the Fox Film Company in connection with their film, "Pyrama." This picture, which stars Olive Borden and is directed by Jack Hytner, is now being made in Alberta.

Encourage Vegetarian Weddings. "Vegetarian weddings are being encouraged by the French Society of Vegetarians. They have organized a series of functions where young lovers of vegetables can start their courtships. Opposites may be attracted to each other say some of the leaders of this movement, but the dinner table is likely to become a battle ground if there be too great a difference in tastes.

For corns and bunions use Minard's Liniment.

W. N. U. 1693

New High Speed Ships

Will Cross Atlantic From Germany In Four and a Half Days

Vincent Astor, recently returned from Europe, brings news of interesting, high-speed transatlantic travel developed in Germany.

Within a short time German ships will cross in four and a half days. The cost of such high speed will be great even with modern Diesel engines, fuel consumption going up many times faster than a ship's speed.

But two of the high-speed ships will make as many trips across the ocean as three of their fastest competitors could make. That will make up for speed cost, saving 50 per cent. in ships and crews. And the short trip will draw the best paying customers, including the idle rich, to whom it does not make any difference how slowly they go. They think they are in a hurry and very busy, and willingly pay for speed.

Plan Scottish Dictionary

Ambitious Project To Be Carried Out In New York

Under direction of the Scottish Dialects Committee a new Scottish dictionary is to be issued. It will consist of from ten to fifteen parts, each part being issued as it is completed. While the project might be self-supporting should there be a sufficient number of subscribers, the committee is being aided financially by the Carnegie Trust, and is sending appeals to Scots at home and abroad, and also to Burns Clubs, St. Andrew Societies and Scottish County Associations. Representatives will be sent to Ireland, New Zealand and other countries to gather material. In seeking information a questionnaire brought 15,000 replies from the district of Edinburgh alone.—New York Morning Telegraph.

Alberta Cattle Breeder Sells Herd

Allan R. Gillies, breeder of Ayrshires and Yorkshires, Clover Bar, Alberta, has sold his entire herd of 63 head of pure bred Ayrshires to parties in Seattle, Wash., U.S. It is unusual for whole herds to be sold at one stroke. The sale apparently indicates that the demand for Western Canada live stock is steadily increasing.

WILSON'S

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Drug-gists and General Stores—10c and 25c per package.

SALESMAN WANTED to sell hardy tested stock of "Canada's Greatest Nurseries" (Established 30 years). New and special lines, including varieties recommended by the Western Experimental Stations. Highest commissions, exclusive territory, handsome free outfit. Start now. Stone & Wellington, Toronto, Ontario.

Leaves For Hudson's Bay

British Engineering Expert Is Accompanied By Official Party

Frederick Palmer, British engineering expert, who has been retained by the Dominion government to report upon the Hudson Bay harbor development at Port Nelson and Fort Churchill, arrived in Ottawa, July 27 from England, accompanied by E. J. Buckton, prominent engineer of London, England, and left at once for Hudson Bay with the official party, which includes Hon. Charles A. Dunning, minister of the department of railways and canals, and Major Graham Bell, the deputy minister.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Coal Production Increasing

Latest official figures show that coal production in both Alberta and Saskatchewan is increasing.

APPLESAUCE

A minister in addressing his flock began: "As I gaze about I see before me a great many bright and shiny faces—"

Just then 87 powder puffs came out.

What's the use? By the time a man outgrows a swelled head his waist line gets the idea.

According to a morning paper women are now buying their dresses on the instalment plan. We seem to have seen some wearing the first instalment.

"You can't keep a good man down," said the seasick cannibal, who had just eaten a missionary.

Time cures all things. Look what fashion did to the girl who didn't have anything to wear.

It doesn't take a married man long to find out that the wedding chime was merely a curfew bell.

"I'm leaving Saturday. I have never seen such dirty towels in my life. There's always a rim in the bath tub and I can never find the soap."

"Well, you have a tongue in your head, haven't you?" queried the landlady.

"Yes, but by gaud, I'm no cat!" replied the irate roomer.

There's no argument. The honey moon is waning when the head of the family crawls into the dog kennel and tells the airedale to move over.

"Austrian bakers have discovered that with the use of Canadian flour they can make more and better bread. The prohibition of night baking also favors the employment of fast-baking flour," says the Commercial Intelligence Journal, Ottawa. Frederick Franke, Austrian Consul, says his country is anticipating with gratification a trade treaty with Canada; for, while the war reduced Austria's population from 54,000,000 to 6,000,000 the city of Vienna has still 2,000,000 to feed.

The Canadian Pacific liner "Empress of Australia," which played so active and conspicuous a part in rescue work after the Tokio earthquake, is now transferred from the Oriental to the St. Lawrence route.

The output of coal from Canadian mines during April last was 45 per cent. greater than the average for April in the past five years, the figure for April last being 1,312,873 tons, as against a five-year average of 907,238 tons.

Over 30 prominent British bowlers arrived in Canada on the Canadian Pacific liner Melita coming to tour this country at the request of the Dominion Bowling Association. Test matches will be played at numerous points across the Dominion.

Extension of trade between the United Kingdom and Canada is the professed object of Theo. Felden, director-general of the Empire Trade League and editor-in-chief of the Empire Mail of London, who arrived aboard the Canadian Pacific liner "Empress of Australia," recently.

Fry to the number of 185,000 have been put in the rivers west of here, with the 60,000 which Fisheries Inspector Martin, of Banff, has just planted. The fry were conveyed in large cans, 5,000 to the can, travelling 140 miles with only one death. The fry are of the brown trout variety.

The Western Canada Dairy Convention which includes all dairying interests in the four Western Provinces, will be held in the Hotel Saskatchewan, Regina, from February 7th to 10th next year. This Association will be hosts to both the inter-provincial gathering and the annual provincial dairy convention of Saskatchewan.

The new mammoth pier of the Canadian Pacific Railway was officially opened recently as a feature of Greater Vancouver's celebration of the Diamond Jubilee of Confederation. Numerous mayors and officials of United States and Canadian Pacific coast ports added an international note to the ceremony.

Raising reindeer for commercial purposes in Canada will be undertaken this year by the Dominion Reindeer Co., with headquarters at Vancouver; the company having imported some 5,000 head of reindeer from Alaska. This herd will be located on the vast grazing areas between the Athabasca and Great Slave Lakes on three million acres secured for that purpose.

H. W. Lennox, Inspector for the Dominion Forestry Branch at Indian Head, says: "The demand for trees has been insistent from all over the west. This year we have orders for 8,000,000, as against 6,000,000 in 1926." Following his tour of the west, he said: "I find generally a more settled feeling. People are planning for the future. The old days, when farming was a here today and gone tomorrow affair, have disappeared. Farmers are planting trees, and, wherever a grove of trees is found, there you will find contented homes."

Gay Festival At Banff For Scots

Scots folk in Canada and the United States can well look forward with keen interest to renewing acquaintance with many of the delights of the home country on the occasion of a Highland gathering and Festival of Scottish music to be held at Banff September 3 to 5 to which the Prince of Wales has given his patronage.

What more magnificent setting for a Highland gathering could be chosen than Banff with that vast amphitheatre of Rocky Mountains encircling the headlong waters of the Bow and Spay Rivers. Scottish fur traders who first penetrated these mountains a hundred years ago were awed by the ruggedness of the scene and impressed by its similarity to their own rugged highlands. The force of circumstance and the love of adventure have brought many Scots to this Western world and it is only natural that they should wish to take part again in the old sports and traditional tests of manly prowess which will be a feature of the gathering, in addition to a wealth of Scottish music. The recorded history of this music goes back to the days of Columba whose mission, established in the sixth century at Iona, spread its influence all over the south and west of Scotland.

Many of the finest exponents of Highland dancing in Western Canada have intimated their intention to take part in the gathering, and Banff, which is the tourist capital of the Rockies, will be ablaze with the tartans of Scotland. Brawny Highlanders, too, will take part in tossing the caber, putting the ball, throwing the hammer, and other such sports.

Supplementing these features will be a series of concerts in the great ballroom at Banff Springs Hotel, for which several of the best known Scottish singers have been engaged including J. Campbell McInnes noted for the rendering of Border and Highland ballads; Madame Jeanne Dusseau, who under her maiden name of Ruth Thom attracted the attention of Mary Garden, the well-known prima donna, by her beautiful interpretation of old Scottish songs; Davidson Thompson, the Winnipeg baritone, who sang with the Minneapolis Symphony; and Ruth Matheson, Winnipeg's fine contralto.

Gaelic singers will be represented by Norman Cameron, tenor and by a group of folk-song vocalists from the Hebrides, who recently came to make their home in Canada.

The programme of Scottish music

has been drawn up by a committee sequence, commencing with a recital of the fourteenth and fifteenth centuries, followed by a recital of the periods of Mary Queen of Scots, Stuarts, and Jacobites. In each there will be songs by Burns, Sir Walter Scott, Lady Nairne, and Christopher North.

Hebridean music, recently made popular by Mrs. Kennedy Fraser will also be featured, and place will be found, too, for the ballads and dances of Highland tribes of Indian whose hunting grounds were from time immemorial in the Negeting Rockies. These Indians will be gathered in a picturesque encampment, and with their teepees and variegated costumes they will add another note of colour to the gathering.

By the courtesy of the Canadian minister of Militia each of the seventeen Highland Regiments in Canada will be represented by its best regimental piper in an endeavour to secure a beautiful trophy offered by E. W. Beatty, chairman and President of the Canadian Pacific Railway Company through whose interest and generosity the organization of this unique Highland Gathering at Banff has been made possible.

WORLD HAPPENINGS BRIEFLY TOLD

Automobile accidents claimed 573 lives in 17 large cities of the United States during the four weeks ending July 16.

Kinjiro Matsudaira, a Japanese born in the United States, has been elected mayor of Edmonton, Mo. He was unopposed in the balloting.

Rev. W. B. Tighe, president of the Ottawa district Baptist Association, is dead. He was 57 years old and was formerly stationed at Winnipeg and Yorkton, Sask.

A consignment of half a million King salmon eggs from British Columbia for a private firm in Argentina, has been shipped from Puget Sound. The eggs are to be placed in a tributary of the Rio de la Plata.

Captain N. A. Sullivan, captain of the Renown, which took the Duke and Duchess of York to Australia, was invested by the King at Buckingham Palace with the insignia of a Commander of the Royal Victorian Order.

The annual crime loss in the United States is about \$3,000,000. It was stated at Atlantic City by delegates arriving for the thirtieth annual convention of the National Surety Company, of New York, which opened there.

The first system of aerial transportation for passengers, mail and express matter in the West Indies will begin operation about October 1. It will connect points in Cuba, Santa Domingo, Haiti and Porto Rico, and flights will be made twice each week.

Miss Sarah Fuller, pioneer in teaching the deaf to talk, died at her home, Newton, Mass., in her 92nd year. She was associated with Alexander Graham Bell, whose teaching of the deaf and the study of acoustics led him to the invention of the telephone.

The Dail Eireann has voted £20,000 (about \$100,000) in a lump sum as a provision for the widow and children of the late Kevin O'Higgins, vice-president of the Free State Council, who was assassinated recently. The money is vested in trustees.

Carrying with them marks of merit in the shape of some of the most coveted trophies in the Empire, part of the Canadian Blesley team arrived home. They brought the Kolapore Cup and the McKinnon Cup, both of which they won at the Blesley meeting.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Advertising experts predict that the volume of newspaper advertising will increase 100 per cent. during the next ten years.

Hikers.

Take a bottle of Minard's in your kit bag. Relieves sore feet.

Air Mail Conference

Canada To Be Represented At Meeting To Be Held At The Hague

L. J. Caboury, Deputy Postmaster General, will represent Canada at the Conference on International Air Mail, which has been called by the International Postal Union to be held at The Hague on September 1. Twenty-five countries will send delegates and representatives of the leading aircraft companies of the world will be present. Temporary agreements will remain in force until 1929, when they will be submitted to the Universal Postal Union, which meets in London in that year.

It is still hoped by officials here to have some experimental flights made during the coming fall, probably in the Gulf of St. Lawrence, in order to have definite information upon which to call for tenders next spring. The experimental work is a matter of arrangement between the Postoffice Department and the Department of National Defense.

Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick, safe relief comes from using Putnam's Corn Extractor. If afflicted with corns, calluses or sore footlumps, use "Putnam's"—it's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor, 25c. at all dealers.

Shirring Is Shown On a Dainty Frock For the Junior Miss

Charmingly simple is the demure frock shown here and is a style the home modiste will find quite easy to fashion. The opening is at the back and shirring forms an attractive self-trimming around the neck, at the waist and lower edge of the long raglan sleeves. No. 1548 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 29-inch, or 1 1/2 yards 54-inch material, and 1/2 yard 36-inch lining for stays under the shirring. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

The United States manufactured a hundred billion cigarettes last year, most of which were smoked by young men who say they never had a chance to save any money.

Mountaineers Fail Again

Towering Ice Wall Prevents Scaling Of Mount Robson

The great ice wall that guards the approach to the summit of Mount Robson turned back the two parties from the mountaineers of Seattle who sought to reach the peak, and another gallant failure must be added to the many that have been the lot of most Alpinists who have pitted the strength and skill of man against the might of this giant peak of the Canadian Rockies.

The mountaineers admit their defeat, but in their losing fight against insuperable odds, they added another brilliant chapter to a history which is bright among the Alpine Clubs of the world.

On their ascent from the floor of the valley to the high camp, they fought a driving rain and low lying clouds which made progress difficult and dangerous. Higher than that they had to contend with sleet and later again, when the weather cleared, with snow that was often waist deep.

Over and through all these obstacles they struggled only to find their way finally and completely barred by the great ice cliff that threw a barricade across the only approach to the summit. More than eighty feet high, in some places a full hundred, this terrible wall of ice rose almost perpendicularly from the lower glacier.

There was no way up it, no way around. To make either attempt was to court instant death. There was nothing to do but retreat and leave the honors with the monarch of the Rockies.

For this year at least the battle of the mountaineers with Robson is over. It is a truce only. Some other day they will come back until their colors of white on a background of green float from the silver turban of this giant of the north. Meanwhile they will content themselves with ascents of lesser peaks, the sentries the colossus Resplendent, Numm, Whitehorn and the other mountains that rise from this beautiful valley where millions of flowers of a million hues bloom even to the edge of the glaciers, and snow-capped peaks that girdle it meet with the skies in an eternal tryst.

Historical Data

Exhibit Relics Of Old H.B. Days In North Canada

Relics of the history of the Hudson Bay Company were exhibited in Winnipeg recently for the first time. Many old documents, books from old libraries used in the long night of the Arctic, swords, guns, marriage licenses, signed before the company officers, and examples of life from every part of the country touched by the company were on view.

A model of the Nonsuch Ketch, the little ship that dared the ice floes of Hudson Bay in 1668, a facsimile of the charter granted by King Charles II. in 1670, along with the deed of surrender of the land by the Hudson's Bay Company to the Dominion of Canada, portrayed the historical events linked up with the opening of the north country. Andrew McDermott's peppercorn lease of land for 1,000 years on payment of one peppercorn a year is among the collection.

For Scalds or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and adds a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Boat Service Superior To Train

Crack de luxe trains in America are far superior to those in Europe, and yet train service has not kept pace with steamship service in the past 25 years. We had crack cannon-ball expresses 25 years ago when the transatlantic liners were rolling tubs. Today they are floating palaces. One never encounters impudent servants on first class liners, and that can not be said of first class trains.

Clay Products In The West

Clay products made in Manitoba, Saskatchewan, Alberta and British Columbia last year were valued at \$1,829,915, compared with \$1,412,537 for the previous year. Alberta led with a production valued at \$804,932.

You can save yourself lots of trouble by not borrowing it.

SUNDAY SCHOOL LESSON

AUGUST 14

DAVID BRINGS THE ARK TO JERUSALEM

Golden Text: "We shall be satisfied with the goodness of Thy house, Thy holy temple."—Psalm 65.3.

Lesson: 2 Samuel 2:1-4; 5:1-5; 6:1-15; Psalm 24.

Devotional Reading: Psalm 81:1-4, 10.

Explanations and Comments

I. David Made King Over Judah. 2:3, 4.—David went northward with all his household and his men, some six hundred of them (1 Sam. 27:2; 1 Chron. 12) from Ziklag, where he had been living with the Philistines as their vassal, and there settled in Hebron and in the cities round about Hebron. Thither came the men of Judah and anointed David king over the house of Judah. "How much choice they had in the matter is difficult to say. The master of a devoted band of seasoned soldiers was a very dangerous man to eject. On the other hand, the public defense was likely to be well attended to by such a man, and then David had always been well disposed toward his own people."—Smith.

II. The Dual Kingdom, 2:5 to 4:12.—A period of seven and a half years is covered by the text omitted from our lesson, during which David was king of Judah, and Ishbosheth, the son of Saul, was king of the Northern Tribes. During this time there were continual feuds between the rival generals, Abner on the north and Joab on the south, though we have the record of only one battle. David seems to have kept out of the contests. His power constantly increased, while that of Ishbosheth, who seems to have been only a tool in the hands of Abner, decreased. Then Abner made overtures to David to make the latter king of Israel. Perhaps Abner was moved by selfish motives, because he saw that Ishbosheth's star was waning, or perhaps he resented the suspicion of Ishbosheth that he was seeking the throne himself in taking to himself one of Saul's secondary wives. David demanded as proof of Abner's loyalty the return of Michal, Saul's daughter, for as the son-in-law of Saul David would be heir to Saul's throne. Abner seems to have compelled Ishbosheth to bring this about. Abner visited Hebron, was hospitably entertained, and departed, and then he was treacherously slain by Joab. Ishbosheth could not long maintain his kingdom without Abner. The disaffection grew, and finally Ishbosheth was stabbed to death in slumber by two of his captains. In great haste they carried his head to David as a welcome present, but they had mistaken their man. They met the same fate that David had meted out to the Amalekite who claimed to have slain Saul.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Favorite Author Of Prince Of Wales

Kipling Is Only One He Quotes From Memory

The Prince of Wales probably read more as a boy than he has done since. He was given a simplified edition of Captain Cook's "Voyages of Discovery" by King Edward when he was seven years old, and this book absorbed him at once. His then tutor, in a monthly report, remarks: "The prince is to engrossed with Cook," which led to him being deprived of "Voyages of Discovery" for a month.

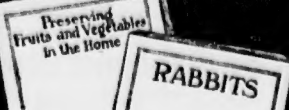

Macaulay's "Lays of Ancient Rome" made a strong appeal to him, especially the lay that tells the story of the Battle of Lake Regillus. The lay entitled "The Spaniard"—finished by another writer—also strongly attracted him. But a selection of Longfellow's poems given him by the Duchess of Connaught decidedly did not. "How do you like the book of poems I gave you?" the prince's grand-aunt asked him a little later. "I don't like it at all," was the frank reply. "I think they are dreadfully dull."

The prince began to read Kipling when he was twelve, and from that time Kipling has been his favorite author. Kipling is perhaps the only author whom he has ever quoted from memory.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Prospecting At Smithers

A report received from Smithers, Central British Columbia, states that more actual new prospecting has taken place in that area during the past twelve months than in the preceding twelve years.

Offered FREE by the Government

THESE two pamphlets, prepared from actual experience by Government experts, contain information of genuine value on any farm.

"Preserving Fruits and Vegetables in the Home" is a 46-page booklet particularly valuable at this time. It goes very thoroughly into every department of canning—fruits, vegetables, jams, jellies, pickles, etc. It discusses the various methods and makes many recommendations helpful towards better preserves and fewer spoils. Contains 74 different recipes.

"Rabbits"—gives the real facts about this profitable farm side-line, mentioning particularly the popular Chinchilla. Explains the chances of money-making in meat and pelts—detailing carefully the best methods of housing, feeding, breeding, marketing, curing diseases and choosing breeds.

Over 500 other pamphlets on farming subjects are available. Write for the 1927 list. Fill in and mail this slip post free to

Establishing Airplane Bases

Three Bases Will Be Completed At Early Date In Hudson Bay Strait Area

The Bay Rupert, the Hudson's Bay Company's ship which was on the rocks off the Labrador coast, has been hauled off without serious damage and has continued her voyage. Radio messages to this effect were received recently by the marine department from the government steamer Beothic, which is carrying the airplane expedition north to the Straits.

The Beothic reported that the site of the first seaplane had been selected at a point near the northeast tip of Labrador at the eastern outlet of the Straits. Two of the six Fokker seaplanes will be left there with aviators and mechanics, a doctor and assistants.

The second base will be established midway up the Straits, and the third at the western end where the Straits join Hudson Bay. It is expected by the commander of the expedition, according to the radio messages, that the three bases will be completed within three weeks and flying operations will begin at once.

Queen's Jewels Priceless

Wonderful Gems Found On Mummy In Egyptian Tomb

Among recent important discoveries in Egypt, according to an Egyptian correspondent, is the finding in Egypt's western desert of a tomb containing the mummy of a woman, presumably a queen, covered with jewels of priceless description. Among these are eighteen bracelets of gold and silver, five necklaces in brilliants on her neck and a superlative crown studded with brilliants. Near the body were found other necklaces in sapphires and brilliants, also a statuette beautifully carved from porphyry. Hieroglyphics on the tomb indicate that the body is that of a princess who lived three thousand years ago, but it has not been possible yet to establish to what dynasty she belonged.

Put On With Brush

"Gliding the lily" has been applied to peaches as a commercial proposition. It took the public some time to discover that the beautiful bloom on a great deal of fine looking fruit was put on with a brush. Complaints were made to the police but the police unofficially replied that their eyes weren't any better than those of customers who buy the fruit. The fraud squad has been instructed to stop the practice.

Father: "I am not at all pleased with this report from your teacher."

Youth: "I told her you wouldn't be dad, but she would send it. Just like a woman, isn't it?"

CROP CONDITIONS ARE FAVORABLE IN ALL DISTRICTS

Ottawa. — Canada's crops are in good condition. A report issued by the Dominion Bureau of Statistics based on telegrams giving the condition of crops at the end of July shows that the crop situation in every province is favorable.

The following is the report based on individual provinces.

Manitoba: — July favorable. Abundant moisture. Slight hail damage. Wheat cutting not general until late August. Much late grain. Pastures luxuriant. Heavy hay crop but low natural meadows too wet to cut. Vigorous straw growth. Promise of at least average grain yield if everything proceeds favorably and rust does not develop.

Saskatchewan: — Favorable weather over the province as a whole has resulted in strong growth of all grains. Wheat, although later than last year, is reported in healthy condition with a generally even stand. Aided by the hot weather of the past week, about 70 per cent. is now headed out. Coarse grains are also in good condition with oats coming into head. Slight traces of rust have appeared in the south and eastern parts of the province, being most noticeable along the line from Verwood east to Weyburn, and from the north to Vibank. Hail caused damage to small areas at scattered points throughout the north and northwestern parts of the province. Severe damage was sustained as a result of a storm originating west of Swift Current, which travelled in a south-easterly direction and caused serious injury in the Vanguard, Kincaid and LaFleche districts. Summer-fallowing is about 90 per cent. completed. Pastures are in good condition with a splendid supply of moisture.

Alberta: — Crop conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grains filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1926. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

British Columbia: — All crops ripening fast. Harvesting rye well advanced. Wheat cutting commencing. Will be general in week's time. Cereal yields will be well above average. Potatoes and roots promising. Early estimates of 80 per cent. apple crop still holds good with prospects of a slight increase when harvesting completed.

Official Visit Will Terminate At Calgary

Remainder Of Canadian Trip Is Holiday For Prince

Ottawa. — The Prince of Wales plans to spend five days on his ranch in the foothills of the Rockies and then to visit Vancouver and Victoria before returning home. It is probable that he will sail for England from Quebec on Sept. 7.

When the Royal train reaches Calgary and the two Royal Princes part company from Premier Baldwin, the official visit of the Prince in effect terminates. The remainder of his stay in Canada is primarily a holiday, although His Royal Highness expects to fill a few engagements.

British Women Making Tour

Large Party Will Make Trip Through Western Canada

Toronto. — A party of 200 women from the Old Country headed by Mrs. Flora Drummond, of London, England, has arrived in Toronto. They are touring Canada and intend to journey on through Western Canada and on to the coast.

Mrs. Drummond, who gained fame as the leader of suffragettes, has now turned her attention to a new movement called "the guild of Empire," which is designed to educate the woman in the home to the economic and industrial needs of the Empire. It has a membership of 40,000 at present.

Poultry Congress Closes

Retiring President Receives Honorary Degree From McGill University

Ottawa. — With speeches expressing international goodwill and with a touching tribute to the retiring president, Edward Brown, of England, the third World's Poultry Congress concluded its business sessions.

Interesting announcements which featured the closing were:

Edward Brown, F.L.S., of London, England, president and founder of the World Poultry Congress, will have an honorary degree conferred on him by McGill University, Montreal, at a special convocation.

Their Excellencies Viscount and Lady Willingdon will shortly build up a flock of poultry of a breed which Her Excellency particularly fancies, as an outcome of the congress.

Ottawa Centenary choir may be taken to England in 1930, en bloc, to take part in the fourth world's poultry congress to be held in London.

United States poultry men are discussing chartering four ocean liners to carry them and their exhibits to the next world's poultry congress in London.

President Ernest Brown read messages from crowned heads of Europe and other distinguished personages, congratulating the congress upon its outstanding success at Ottawa.

Increase In Tourist Traffic

Canadian Rockies Great Drawing Card Says Railway Official

Winnipeg. — That tourist travel this season was in excess of previous years, and that visitors were coming to Canada from all parts of the world, was stated here by C. E. Usher, general passenger traffic manager of the Canadian Pacific Railway.

Mr. Usher, who has just completed a tour of inspection of the company's famous summer resorts at Banff and Lake Louise, said that more people were visiting the Canadian Rockies than ever before, and that indications pointed to a steadily increasing traffic from year to year.

Mr. Usher was optimistic with regard to conditions throughout the country and was of the opinion that business on the Pacific coast and on the prairies was such as to give cause for general satisfaction.

Naval Conference Ends

Delegates Agree That No Pact Can Be Reached

Geneva. — After trembling on the brink of a precipice the tripartite naval conference, at the solemn hour of midnight, crashed to the bottom of the abyss. Its delegates mutually and sorrowfully agreed that no pact could be reached to limit further the armaments of Great Britain, the United States and Japan at this time. This announcement was made after a meeting of the plenipotentiaries to consider the Japanese compromise proposals.

The decision to adjourn the conference was brought about by the inability of both Great Britain and the United States to accept the Japanese compromise as a basis of discussion for settling the cruiser question, which was the crux of the whole conference.

Baldwin Celebrates Sixtieth Birthday

King and Queen Send Greetings To British Premier

Ottawa. — August 3 was the right Hon. Stanley Baldwin's 60th birthday and hundreds of congratulatory messages poured into Rideau Hall all day. Among them were messages from the King and Queen, expressing to the premier of Great Britain their congratulations on his 60th birthday.

He was presented with a silver salver by members of his staff, tokens of esteem from their Royal Highnesses, the Prince of Wales and Prince George and Their Excellencies, Lord and Lady Willingdon, and a beautifully gold-mounted cherrywood pipe from Rt. Hon. Mackenzie King.

Financial Aid For Queen Marie

Paris. — A Hayas despatch from Bucharest says that the chamber of Deputies has voted a civil list which will give more money to Dowager Queen Marie from the state treasury than to little King Michael.

MALCOLM GEDDES LOSES HIS LIFE ON LEFROY GLACIER

Calgary. — Malcolm D. Geddes, of Calgary, veteran member of the Alpine Club of Canada, was pitched 2,000 feet to his death when he attempted to glide down the Lefroy glacier, near Lake Louise. This is a deceptive glacier and once Mr. Geddes started he found it was impossible to check his flight. First he was thrown, then his ice pick was torn from his hands and with terrific speed he was carried over the ice ledge and hurled to the rocks and ice far below.

Mr. Geddes was conducting a private party and a guide had not been taken along. He led his friends to Mount Lefroy peak, a feat that was not difficult for him in the light of his experience in climbing this particular mountain, and it was on the downward journey that the tragedy occurred. The expedition had no connection with the Alpine Club of Canada.

Mr. Geddes was one of Calgary's best known business men. He was editor and vice-president of the Farm and Ranch Review, and was president of United Oils, Limited.

Non-Stop Flight Fails

British Aviator On Secret Trip To India Crashes

London. — The British air ministry announced that an attempt of a Royal Air Force machine to make a non-stop flight to India ended when the plane fell into the Danube River, in Austria.

Despatches from Vienna reported that the plane fell at Sonenberg near Linz, the crash being believed to be caused by the over heating of the motors.

Flight Lieutenant C. R. Carr and Flying Officer E. G. Deavish, neither of whom, it was stated, was badly hurt, were taken to Asbach, near Linz.

A Distinguished Visitor

London. — Canada is to have yet another distinguished English visitor in a short time, Lord Howart of Bury, lord chief justice of England. He will attend the annual meeting of the Canadian Bar Association in Toronto, which will open on August 21. Lord Howart has held his present high office since 1922, when he stepped up from the attorney-generalship after having been attorney-general from 1919.

Promotions Approved

Regina. — Among the promotions and transfers approved by the Civil Service Commission are the following: Arthur Paterson, Prince Albert, from grade 3 clerk to grade 4; George Garrett, forest assistant, grade 2, Grand Conlee; Walter Pottle, to be radio inspector or radio electrician, Regina.

University Students Turn Harvesters

These alert and lucky lads are British University students here for the harvest. They came to Canada aboard the Canadian Pacific steamer Montrose, arriving in Quebec and Montreal recently. While awaiting their jobs in the harvest fields of Saskatchewan, they are being placed on Ontario farms during the harvest season, by Ontario Government agents. They will return to their respective colleges in England and Wales towards

Scandinavian States Have Outlawed War

Series Of Treaties Ensure Peace For All Time

Stockholm. — By a series of unrestricted treaties of conciliation and arbitration, war has already been "outlawed" between Sweden and her Scandinavian neighbors, as well as with a number of other European countries, Prime Minister Carl G. Ekman declared in an interview.

"Of course," said the Premier, "one of the parties breaks the contract, war may break out just the same, but it will not be legal."

"We have agreed with these countries that all disputes, no matter how serious, are to be arranged peacefully. The methods of procedure differ slightly in each case, but the effect is the same. What we can not settle by direct negotiations or by arbitration will be decided by the International Court of Justice at The Hague."

The states with which Sweden has solemnly pledged itself to rule out war as a means of settling disputes are Denmark, Finland, Norway, Belgium, Poland, Austria and Czechoslovakia. The other Scandinavian states have also made similar terms with each other.

At present, negotiations are pending between Sweden and France for a similar agreement. The actual conference was to have started in June, but, owing to the parliamentary situation in France, it was postponed till next January.

Rockefeller Asked To Cancel Soviet Deals

British Group Want Oil Investment Withdrawn Is Report

New York. — The New York Herald Tribune says that an appeal to John D. Rockefeller, Jr., active head of the for long Standard Oil empire, to withdraw from any financial deals with the Soviet Government has been made by Sir Henri Deterding, managing director of the Royal Dutch Shell Oil group, of Great Britain. The appeal was made after the Royal Dutch group had been unable to block two large United States oil companies, members of the Standard Oil group, from entering into oil contracts with the Soviet.

In his letter Sir Henri is understood to have appealed to Mr. Rockefeller's interest in churches and philanthropic work, pointing out that the Soviet had destroyed churches and similar institutions as well as having confiscated property and nationalized all industry.

Held Night Session

Dublin. — The Dail Eireann decided by a vote of 54 to 24 to sit all night for the purpose of passing the government's drastic public safety bill. The bill was introduced by President William Cosgrave, after the recent assassination of Vice-President Kevin O'Higgins. Under it the death penalty may be imposed for the possession of arms.

DEDICATE ALTAR WHERE LIES BOOK OF REMEMBRANCE

Ottawa. — Within the sanctuary of the Peace Tower the Prince of Wales dedicated the altar where will lie the Book of Remembrance to the 60,000 Canadians who died in the war. There in the memorial chamber, standing on stone from the battlefields of France and Flanders, the Prince had gathered about him men whose names are known in Canada through and through. The Governor General and Lady Willingdon stood side by side with Prince George, with the Prime Minister of Great Britain and Mrs. Baldwin. The apostolic delegate stood close by the moderator of the Presbyterian Church and the President of the Baptist convention.

Premier King in a few words invited His Royal Highness to dedicate the altar. He spoke of what he meant, how the altar was a gift from the mother country of Great Britain, of how, when the book of remembrance was finally deposited, it would contain the names of sixty thousand Canadian dead.

The Prince advanced.

"In the name of the people of Canada," he said, "I set apart the altar of this chamber to receive and hold for ever the Book of Remembrance to the glory of those whose names are written therein that they may live for all generations."

He raised the Union Jack and turned it back. And, as he turned it, revealing a book on cloth of red and white and gold, a shaft of sunlight streamed through the windows and words inscribed on the altar were clear and distinct.

"My marks and scars I carry with me to witness for me that I have fought His Battles who will now be my Rewarder. So he passed over and all the trumpets sounded for him on the other side."

As the last words fell from the lips of the Prince, the Last Post echoed through the silence of the tower. Above the flag dipped in tribute. Faintly from the great square outside could be heard the guard of honor or called to the present arms.

War Veterans Secure Land

Returned Men File On Homesteads In Saskatchewan

Moose Jaw. All that remains of the once famous W Bar Ranch, southwest of Coderre, consists of an eighty-acre park, the property of the Shamrock Rural Municipality. The remainder of the ranch pasture was filed on by homesteaders, and only one quarter section of very poor land was secured by the homesteaders, who filed on some 80 quarters. About one-half of the acreage was obtained by war veterans, and every parcel was secured by men of British birth who are actively engaged in farming operations within nine miles of the land they desired.

Held Justified In Killing

Boston, Ont. — Alex. Hodge was justified in killing Dan Forsythe when the latter invaded his home near here July 22, the coroner's jury, inquiring into the case decided. The verdict read: "The jury sworn in to inquire into the death of an unknown man have arrived at the conclusion that the said man was none other than Dan Forsythe and that he came to his death at the hands of Alex. Hodge, who acted in defence of his own life, and we deem him justified."

Report Is Denied

Ottawa. A report which has appeared in a portion of the press to the effect that Right Hon. Stanley Baldwin has accepted a gift of a motor car made especially for his use during his Canadian visit was emphatically denied by members of the British Premier's staff. There was said to be absolutely no foundation for the report.

Water Was Electrified

Bangor. — Ernest Norwood, fireman and janitor of a factory here, started to wash his hands in a basin of water he saw on the floor. He woke up in a hospital. The basin was highly charged with an electricity, being connected with an electric refrigeration plant.

Western Canada To Be Important Section Of One Of World's Greatest Countries

Western Canada, "An Acre of Diamonds," is destined to be in the years to come one of the greatest parts of one of the greatest countries of the world, according to Roger W. Babson, prominent statistician and authority on business affairs, who addressed the Board of Trade at Calgary recently.

Mr. Babson dealt with the location, the climate and the resources of the country and to the characteristics of the people who comprise its population. He spoke of the emigration of the Canadian youth to the United States, and deprecated the fact that more about Canada is not taught in the universities in order that the students might be shown that to go to the United States is but to live on milk and honey for a few years only to be thrown on the scrapheap later, when, had they stayed in Canada, they might start from the bottom of the ladder, but surely build business and financial independence for themselves.

Dealing in detail with this exodus, which has been taking place from Canada to the United States, the speaker declared that, during his travels in Canada he has made a point of inquiring from the young people whom he has met, to find out what their primary ambitions are. He has found here many young people from the British Isles and Australia who are staying in Canada only until their quota in the United States may be thrown open.

"In your universities and colleges, you are teaching your young people about history and the sciences and law, but are you teaching them enough about Canada?" he asked. "Are you teaching them anything about Canada's abundance of resources? Are you telling them the truth about the economies of Canada?"

Much can be done to really assist these young people by educating them to the true economic condition of the United States. At present that country, he continued, is bearing forward in a great wave of prosperity, but the wave cannot always last; the stock markets cannot always continue to go up. There must be a time when the tide will swing the other way and when the depression comes, the Canadians, the English, the Scotch and the Australians will be the first to be cast out of employment. Much can be done to prevent this disaster for them by a proper method of education, he continued.

Canada, he declared, has the proper climate because a temperate climate is necessary for the building of sturdy, virile manhood. Such a climate has always been responsible for the raising of the races of men, who have contributed the most to the world's progress, and the speaker gave example in the development of the United States to show that the large majority of the men who really contributed most to the upbuilding of the nation's greatness came from the northern climates.

Shipping Horses To Russia

Western Horses Bound For Russia Leave Alberta

The first of the 4,000 Canadian horses ordered by the Russian Soviet government has left Alberta. It is announced by J. M. McCallum of the Canadian Department of Agriculture. Arrangements were made for a trainload of 26 cars, carrying 598 horses, to leave Calgary and Medicine Hat.

Although some difficulty has been caused in procuring the number of horses required because of the price offered, Mr. McCallum said the first boat load would leave Quebec only a few horses short of the 1,400 previously arranged for.

Good Prospects For Sheep

Prospects for the sheep industry are most hopeful this year with good prices in sight for both lambs and wool, according to W. H. J. Thibault, assistant manager of the Canada Co-operative Wool Growers' Association, who has just completed a tour of the wool growing districts of Western Canada.

A Modish Separate Blouse and Skirt

Exceedingly smart is the blouse shown here, of unusual design, having tucks at the shoulders, and a square neck. Contrasting material is used for the bands under the scallops at the left side of the blouse and on the long tight-fitting sleeves, cuffs on the short sleeves, and patch-pocket. The blouse is No. 1589 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/4 yards 39-inch or 1 1/2 yards of 54-inch material; 1 yard less 39-inch for short sleeves; 3/4 yard 39-inch contrasting material. Price 20 cents the pattern.

The skirt, having an inverted plait at each side of the front, and slight gathers at the back, is joined to a dart-fitted under-bodice having a shaped top, or shoulder straps. The skirt is No. 1590 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 1 1/2 yards 36 or 39-inch material for skirt; 1 1/2 yards 36-inch material for shaped top, or 1 yard for straight top with shoulder straps. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

How To Order Patterns

Car Salesman: "And what kind of a horn would you like, sir? Do you care for a good, loud blast?"
Haughty Customer: "No; I want something that just sneers."

Poultry Business Profitable

Canada Not Yet Aware Of Importance Of Industry

An honor was paid to Canada by selecting Ottawa as the scene of the World's Poultry Congress. This is only the third congress that has been held, so that the place of the Dominion in poultry matters has early received international recognition.

Canadians are so much accustomed to hear about the value of the wheat produced in the West, the value of our lumber and minerals, and the value of our manufactures, that the importance of the poultry industry is lost sight of.

There are few great poultry farms, but it is the few here and the few there that combine to make up a vast and, to those who know how to handle it right, a very profitable business.

Fifty million dollars is the value of the annual production of eggs alone in this country. Many millions more must be counted for poultry sold for the table.

Canadian eggs stand foremost in quality. They command the highest price for eggs imported by the British market.

That position is only achieved by sound breeding. The result carries its own message for the farmers of this country.

If quality of eggs commands the highest price in the export trade, the same principle applies to bacon, butter, cheese and every other product. In these lines Canada is either falling behind or almost standing still.

There are too many farmers who are content to jog along, doing a little better than just making ends meet. They need stirring up to a realization of their opportunities. They owe it to themselves and to Canada, so that every article that is sought by export buyers will measure up to one standard—the best—and importers will have confidence that if it is Canadian it is good.

Use Tar Sands On The Road

Ninety Carloads Of Tar Sands From Fort McMurray To Be Used At Jasper

Ninety carloads of tar sands will be shipped from McMurray during the present summer, to be used in road-making at Jasper Park. The work of surfacing the roads is being supervised by Dr. S. C. Ellis, of Ottawa, who has spent several years investigating the tar sand deposits and experimenting with the material with a view of developing some practical means of utilizing the material. A piece of road paved with the tar sands in the City of Edmonton some years ago under the supervision of Dr. Ellis, is in almost as good condition today as it was when first laid down, in spite of heavy traffic.

Hunting For New Double Stars

Through a huge telescope that has been completed after many months of work, astronomers propose a ten-year search about the skies from an observatory in South Africa for the purpose of measuring the known double stars and to hunt for new ones. The lens for the instrument was made in Pittsburgh and cost \$25,000. It will be mounted under an electrically operated fifty-foot dome, costing approximately \$30,000.

Migratory Birds Treaty Between Canada and U. S. Has Been Very Beneficial

Horses Deserves Best Of Care

Is Still Indispensable and Renders Good Service

The horse is a faithful, patient friend of man. He deserves the utmost care and attention. He still plays an important part in the economic life of the nation, and is still indispensable. In short hauls he is cheaper power than the auto. Apart from treating the horse well for his faithfulness, it pays to use him well from the standpoint of service. A well-fed, well-cared-for horse will be in a position to render better service than the horse which is neglected and ill-fed.

Now that the hot weather is in evidence, those using and having the care of horses should give them extra attention. Of course they should be well supplied with food and water, and they need a large quantity in the course of a day.

There are two sources from which the working horse may suffer great annoyance and pain—one is the collar, the other the bit. Almost every working horse bears scars or a painful sore on the top of his neck, where the collar has galled him. Often he is compelled to wear a breast collar, and this places him at a disadvantage when hauling a heavy load. A properly fitted collar, well adjusted and padded, will cause no trouble.

Be good to your horse. He will be grateful to you and will render you increased service.

Retain Women Employees

No General Removal Of Policy On the Part Of the C.N.R.

"The Canadian National is not as a general principle, substituting men for women in the various clerical positions throughout its system," stated W. A. Kingsland, general manager of western region, Canadian National Railways.

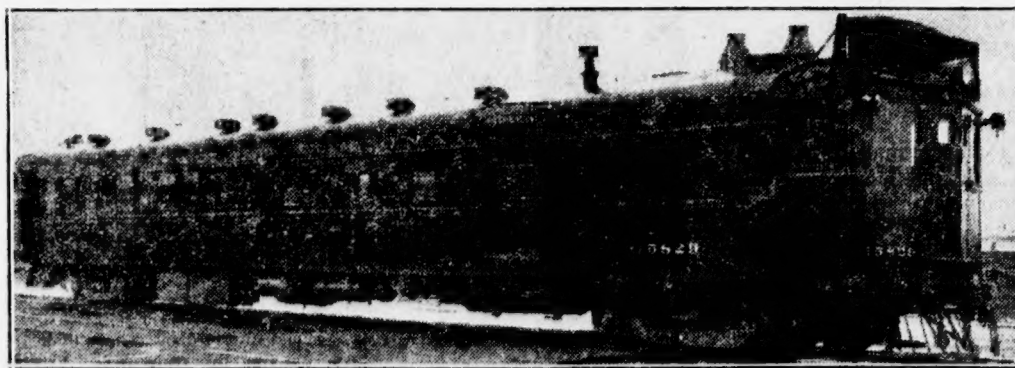

Press reports that women were to be let out of clerical positions all over the system and men substituted, caused consternation in the ranks of women workers for the railway, which situation is now clarified by Mr. Kingsland's statement.

What is being done, Mr. Kingsland stated, was that in certain clerical positions where, due to conditions, it was considered that men were better fitted for the work than women, men are being substituted, but there is no general reversal to the policy which existed before the war, when men were employed throughout the service, and few, if any, women.

Seek Cooler Motor Car

Experiments at the air research laboratory of the American Society of Heating and Ventilating Engineers in the Pittsburgh bureau of mines may lead to many developments in automobile design, according to F. C. Houghton, director. Among the possibilities are mentioned white roofs and strips of damp burlap or some other device to lower temperature in hot weather.

RUNNING AHEAD OF THE TIMES

To keep abreast of the times is good, but to run ahead of them is better, and that is what the Canadian National Railways are doing in putting on the rails this powerful oil electric car, the latest invention in railroad transportation equipment. Two of these cars has just come west from Montreal for service on the line between Saskatoon and Edmonton.

They are fashioned after the oil electric car which made the famous run from Montreal to Vancouver in seventy-six hours in the fall of 1925, but they contain many improvements and additions and are equipped with six-cylinder engines. Although many railways in the United States have endeavored to evolve a car which would be economical to operate as

well as able to satisfy the demands of traffic, the Canadian National Railways have been the only system, up to the present, successful in producing a self-propelled unit capable of fulfilling all the requirements. The new cars are 73 feet 9 inches in length and ten feet wide and have commodious baggage, passenger and smoking compartments. They can carry 200 gallons of fuel.

"If spring shooting of migratory game birds had not been abolished throughout North America in 1916 there would not now be left a sufficient number of birds of certain important species to provide shooting for anybody, either in spring or fall."

This considered opinion of a Canadian game conservationist brings in to high relief the benefits of the Migratory Birds Treaty between Canada and the United States and the Acts which implement it. The complete extinction of the passenger pigeon shows that this is not an overstatement, for while the case of the passenger pigeon presents peculiar features, nevertheless the fact remains that this beautiful and useful bird was exterminated because of lack of protection at the spring nesting time. The passenger pigeon in the 80's of the last century flocked in Canada and the northern United States by millions, yet so rapid was the process of extermination that this bird had completely disappeared nearly thirty years ago.

This and other facts concerning the possible practical extermination of some of our remaining species of migratory game birds—geese, ducks, etc.—have led to the general acceptance by sportsmen of the prohibition of spring shooting as a necessary provision. Under the old piecemeal methods of local regulation on the one hand, and the decreased area of breeding grounds and increased efficiency of hunting arms on the other, many species of migratory game birds were, before 1916, dwindling in numbers in a most rapid and alarming manner. Crossing as they did provincial, state, and national boundaries in their semi-annual flights, the birds could not be protected unless the regulations were continent-wide. That was secured by the Treaty and like good sportsmen the different provinces and states are playing the game. In the United States the shooting of ducks and geese stops on January 31, so that these birds are protected on their northward flight to Canada.

Everyone knows that there is no surer way to exterminate any animal or bird than to pursue and harry it immediately before and during the breeding season. Taking into consideration that every bird arriving in Canada has survived a winter and two migrations, it is probably not over the mark to say, from the standpoint of bird conservation, that each bird killed in spring is the equivalent of four or five killed in the autumn. The abolition of spring shooting, according to reports from all parts of the country, has increased the fall flights, and birds are now nesting in localities where they had not been seen for so long that people had come to believe they had never nested there. The object, of course, in these measures is not to reduce human profit and pleasure but to increase it by perpetuating and increasing the numbers of the animals or birds concerned. Speaking of the country as a whole, Canada has held a good stock of moose and deer, and is rapidly bringing back the buffalo and the elk, and there is every reason to believe that the same happy result will follow the efficient management of North America's wild ducks and geese.

Advice Seemed Good

Certain actor, playing the part of a consumptive hero, practised a realistic cough. During the first performance he coughed continually. After one terrific explosion his old tutor, in the play, had to remark, "My dear friend, what can I do for you?" Whereupon a sympathetic friend from the gallery exclaimed, "If you are his friend, why don't you give him a blooming coughdrop?"

Trying Color Cures

By replacing white walls and red coverlets in hospitals with delicate green, yellow, and mauve ones, it is claimed that patients are kept in a better temper, sleep well, and leave hospital three days sooner than under the old conditions. One individual, afflicted with chronic insomnia, went to sleep within an hour in the restful atmosphere of a room decorated in mauve.

Betty Buzz stars in screen comedy

FLIT spray clears your home of flies and mosquitoes. It also kills bed bugs, roaches, ants, and their eggs. Fatal to insects but harmless to mankind. Will not stain. Get Flit today.

CHAPTER V.—Continued.

Helmi sang as she did everything else, without the slightest trace of self-consciousness. She stood in the doorway with her hands behind her, and to the gray-haired ladies who listened she seemed like the embodiment of hope and youth and aspirations as she sang in her deep voice,—

"Keep on sowing when you've missed your crops,
Keep on dancing when the fiddle stops,
Keep on faithful when the curtain drops,
And you'll get there in the morning!
"Keep on trusting in the cause of right,
Keep on looking to the dawn of light,
Keep on fighting till you've won the fight,
And you'll get there in the morning."

CHAPTER VI.

Helmi's lessons went on. She could answer the telephone an explain in concise English that "Miss Moore is owell," or "Would you please wait one minute," followed by "Thank you very much."

"A civil tongue, Helmi," Miss Moore had told her, "may not take you as far as a pretty face, but it will take you along a safer road."

Helmi lived for the days she had her lesson. In the atmosphere of

elegance and beauty she felt herself expanding like a Japanese water flower. Even the smell of her friend's house was luxurious. Miss Moore's house smelled of soap, clean clothes, moth balls, and soup with onions in it, pleasant enough, too, in its common, coarse way, but the Doctor's house smelled—Helmi could not find one word to describe it. She had noticed the same delicious odor in a shop in Helsingfors before she sailed. It was of flowers in winter time, a rich smell, with that impalpable hint of luxury which was so dear to Helmi's heart. Some days she rode in the car with her new friend, revelling in the soft gray plush cushions and the sparkling glass vase at the side, which the Doctor kept filled with fresh carnations. Even the floor of the car had a velvet carpet, and a light came on in the roof by merely pushing a button! Helmi tried to write a letter home telling about it, but in the hard working world at home, with its meagre vocabulary, there were no words to tell of such magnificence. There was only one word to cover it all, and it was English, and if she had written home the Finnish equivalent of that word, it would have misled people to think the car had sustained a bruise or had contracted mumps.

Helmi had to learn new words, for she was experiencing new thrills each day. Mrs. St. John took her once a week to the Moving Pictures Theatre, where Helmi sat spell-bound and dazzled. From the time she entered the enchanted place until she came out again into the sunshine she knew nothing of the real world. Watching the pictures she came up the aisle seeing no one, conscious of nothing, stumbling on the steps without knowing there was a step, or that she had stumbled, following her friend vaguely to a seat, and sitting perched on the edge until some indignant person behind her told her to sit down and let somebody else see, with an impatient "What is the matter with you, anyway?"

The world Helmi entered through the green plush doors, laid hold on her impressionable young heart. She saw lovely ladies in trailing beaded dresses and shining jewels, leaving their elegant homes to go with their lovers, and smart young stenographers wearing seal coats and hats they could clap on their heads and always look just grand, and who married the old man's wayward son and saved the old man's business from ruin by listening at the door when the bad men were plotting. Then and there Helmi determined she would be a stenographer.

Sometimes when riding on a street car Helmi would pick out some weather-beaten old business man with wiry beard whom she believed might be her future employer. It became her delight to give up her seat to such, rather to their discomfort. She felt it only right that she should pay them this little attention. She wondered greatly about the sons of these men—so much would depend on the son

After that her teacher could not keep enough words ahead of her. Helmi kept a list of words pinned over the sink while she washed dishes, and in between her moments of attending to the real business of dish-washing she practised her sentences:

The lady is beautiful.
She has an elegant coat.
Will you go for a drive?
Have a chocolate?
I adore chocolates.

Miss Moore, who tried to help on the good work of Canadianizing this young person who had come to our shores, wrote on her sheet:—
"Honesty is the best policy."
"Civility costs nothing."

"Evil communications corrupt good manners."

And these Helmi faithfully copied, but they left her cold. Indeed, she told herself in good Canadian that Miss Moore's sentences were dumb-bells!

Further attendance at the pictures brought home another fundamental truth—the lovely lady is always forgiven—indeed, she can do no wrong. She may appear to do wrong, but someone else is really to blame. She found this to be true with the Doctor and his wife. The Doctor loved her even when she scolded him, pleaded with her when she pouted, laughed at her extravagance though pretending to be horrified, bore with all her moods and rages. Helmi knew it was because she was so beautiful. Every one said the Doctor's wife was such a lovely lady.

No wonder Helmi now decided against stenography. She would be a lovely lady! And the words and sentences which appeared on the wall were tinged with this resolve.

Helmi was struggling with the lesson on the beaver, in the Third Reader. "He is an amphibious animal," she read, "living both on the land and in the water." She looked inquiringly at her teacher, whom she knew, without looking up, was regarding her intently.

"Pshaw, Helmi, a girl with eyes like yours doesn't need to know about amphibious animals. Close the book—that will do for today. I want to talk with you. Life is a dull place anyway—we have to take what thrills we can. I get a thrill out of you some way, you are so young and promising. Now, I am going to have a party. The Doctor is going East in a week. I have my parties when he is gone, because my parties and my friends bore him to tears. So we set the dates to suit. And besides his mother is coming to visit us soon, and I want something new. You're the newest thing I know, and so I want you at my party."

"I have no clothes," began Helmi, "for style party."

"Listen, Helmi, I have the clothes, closets full, and I know just how to dress you. You won't need to talk, so don't worry over your English. You'll be a young Finnish lady visiting Canada, the Prime Minister's niece, and my friends in Montreal asked me to look after you. Your father is a shipping broker, and you are on your way to Vancouver to join him. We'll fool them, and when they are all raving about you, and wanting to dance with you, in your delightful broken English you will beg them to excuse you—you are so tired. You will slip upstairs, change back into your maid's dress, and come down and help Manda to serve. Now, come and let me try on your clothes. You are going to be a symphony in green, Helmi—there's no color so dazzling as green. Mauve dreams, red raves, but green sings. You're to be a singing goddess."

Helmi's eyes were dancing at the thought of such a thrilling adventure, and when in the region of enchantment upstairs in Mrs. St. John's room, the walls of which were of pale green brocade satin, the hangings of the same, and the rugs so plushy green that they reminded her of the loveliest moss she had ever seen, she found herself looking into the glass at a beautiful girl in a creamy green clinging dress, silver slippers, jade earrings and necklace, a marvellous cloak a shade deeper than the dress, and lined with flame-colored satin that glimmered and shone. It was all just like a fairy story.

(To Be Continued)

Minard's Liniment for scaly scalp.

"Feyther," said little Mickey, "wasn't it Patrick Henry that said 'let us have peace'?" "Nivver," said old Mickey. "Nobody by the name of Patrick Iver said anything like that."

Enlightened Red Men

Old Time Indian Chiefs Who Were Loyal to the Government

Western newspapers are liberal in their praise of Chief Thunderchild, who died on his reserve near Saskatoon a few days ago. He is said to have been the last of the old-time chiefs, and as such signed one of the half-dozen treaties in the seventies by which the red man surrendered his prairie domain to the advancing whites.

Thunderchild illustrated how fortunate Canada has been in its relations with the aborigines. He was one of the chiefs who refused to join Riel in the Rebellion of 1885, and remained loyal to the Government with which he had made a covenant a few years earlier. The organization of the Northwest Mounted Police in 1871 was a wise move by the Canadian Government, and the Indians soon learned the value of the force as a protecting agency for them.

Crowfoot, the wise Chief of the Blackfoot tribe, out near the foothills, expressed well the view of the enlightened Indian when he signed the Blackfoot Treaty in 1877. "If the police had not come to the country, where would we all be now?" he said. "Bad men and whiskey were killing us so fast that very few indeed of us would have been left today. The police have protected us as the feathers of a bird protect it from the frosts of winter."

Crowfoot, too, refused to join in the rebellion, and he welcomed the railway as the natural instrument of the white race which in the Canadian West had befriended the natives who had to give way to new conditions. Toronto Globe.

Gold Reserve Well Protected

Underground Vaults in Bank of England Are Burglar Proof

Although workmen engaged on the new underground vaults of the Bank of England, where all of Great Britain's gold reserve will rest, are guarded from prying eyes by armed policemen, some details have leaked out regarding what is said to be the world's hardest job of safe cracking.

Underneath the present bank are concrete walls fifty feet deep and seven feet eight inches thick. If somebody with felonious intentions were to tunnel through these he would come into a passage patrolled by guards and protected by every known alarm system around all four sides of the treasure.

Once in this passage way the crackman would have to cut through double grills of steel. The next step approaching the swag of several hundreds of millions of dollars in gold would be to cut through doors of solid steel weighing 24 tons each. This would take oxyacetylene drills, in the hands of experts at least three days. These doors can be swung with light pressure of one hand, if they are open. When they are locked it is different.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Something To Be Proud Of

Britain Holds Envious Place in Long Distance Flying

The British record in long-distance flying is something to be proud of. We have to our credit the first conquest of the Atlantic both by airship and aeroplane, the long array of Empire flights by Sir Allan Cobham, and the magnificent non-stop attempt to India which synchronized with Colonel Lindbergh's Atlantic crossing. Yet to a great extent, because we are without the flair for self-advertisement which is a conspicuous possession of some other nation, Britain's reputation abroad is tending to become that of an indifferent performer in the air, and pessimistic critics at home are talking and writing as if we had fallen into a position of hopeless inferiority.

Husband: Well, thank the Lord the car is finally paid for.

Wife: Isn't it splendid! Now we can turn it in on a new one.

Minard's Liniment for cuts and bruises.

Little Helps For This Week

Walk worthy of the Lord unto all pleasing, being fruitful in every good work. Col. 1. 10.

True worth is in being, not seeming. In doing each day that goes by. Some little good, not in dreaming. Of great things to do by and by. —Alice Cary.

Not what we think, but what we do. Makes salutes of us. —Ibid.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Airplanes Outdo the Birds

Able To Make Much Longer Non-Stop Flights

Factory-made wings have eclipsed the feathered species. Lindbergh's non-stop flight was 3,610 miles. The distance flown by Chamberlin and Levine is estimated from 3,900 to 4,400 miles. The longest non-stop flights of birds have been those of Alaskan plovers from the Aleutian Islands to Hawaii, a distance of 2,400 miles, and the annual migrations of golden plovers from Newfoundland and Nova Scotia to the Leeward Islands and the northeastern coast of South America, a distance of 1,700 to 2,200 miles.

It takes a good artist or a good actor to draw a good house.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it." —Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

There will be a dance in the New
Gamble School on Friday evening,
August 26th. The proceeds of
this dance will go towards the pur-
chase of a new piano for the school.
Everybody welcome.

The results of the Alberta Dia-
mond Jubilee History competition
were announced in Monday's Al-
bertan and among the names listed
under the Trochu Inspectorate was
that of Wilfred Laird Poxon, a Car-
bon boy who wrote the paper while
in his eighth grade last year. For
this honor Wilfred will receive a
bronze medal from the committee
in charge of the history competi-
tion.

The Annual Masonic Church
service will be held in the Carbon
Union church on Sunday evening,
Sept. 4, at 7.30 p.m. Rev. Bro.
C. B. Oakley will officiate, the
subject of the sermon being, "Ma-
sonary's Greatest Luminary."

Not merely How much you pay but How Much You Get

CHEVROLET

WITH New Lower Prices is now
combined the most Amazing
Quality in all Chevrolet history.

Chevrolet has widened the circle of auto-
mobile ownership . . . provided econo-
mical transportation to untold thousands
. . . placed within reach of the average
motor-car buyer a QUALITY and a
LUXURY beyond all expectations.

In judging Chevrolet look not merely at
what you pay, but also at what you get.
Consider the smooth, fleet performance,
the grace and beauty of the Fisher bodies,
the ease of starting, driving and stopping,
the refined yet rugged quality evident
throughout Chevrolet construction.

Weigh Chevrolet quality with Chevrolet
price and know why Chevrolet has
achieved the most spectacular popularity
of any car in the world.
